

January 4, 2012

Dear Sirs,

My name is Silvio Pereira and I am the manager of the R&D Department of Globo TV Network, the main broadcaster in Brazil. Our team has been developing, for the last 20 years, unique and advanced applications to fulfill our company demands and is worldwide recognized as one of the best engineering groups of this market.

I had Mr. Romulo Pinho as a member of it for 5 years. He is one of the most brilliant researchers that I have the opportunity to work with, with a superior intelligence and an exceptional motivation to embrace all challenges, having proved during this period not only his technical qualifications but also the ability to coordinate entire projects.

My opinion is that Mr. Pinho is qualified to be integrated with honor in any institution, following in his brilliant and successful academic career.

Best regards,

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke.

Silvio Pereira

R&D Manager  
Globo TV Network  
746 Jardim Botânico St.
